PROJECTS

SPACE INVADERS

The project concerns the development of a video game created for the exam of the game development course.

The project was built using the Unity game engine and the C# programming language for scripts.

Singleton, inheritance, overriding, etc are used in the scripts.

MUSEUM DATABASE

The project was made for the exam of the database course.

It concerns the design of a database related to a museum.

The E-R schema, the data dictionary, the volume table were created and the physical design was carried out using MySQL.

SKILLS

**C++ C C# PYTHON JAVA HTML DOCKER
CSS JAVASCRIPT SQL GIT MySQL**
